

weeks in the UK. She attended the Developing Health course in London, where she learnt much and obtained valuable resources for the hospital and then spent 3 weeks in NI seeing the medical system here and meeting different groups and individuals. It was a pleasure to host her, and those who met her enjoyed hearing more of her work and family.

With this letter you will find information about Christmas cards, calendars and Christmas gifts that may help you with your Christmas shopping ideas and raise funds for the hospital. We have also enclosed a standing order form and would ask you to consider if you could support this vital work regularly. Small amounts given regularly from many people would help secure the future of the hospital and staff, and allow for planning of services rather than cutbacks. It is hard for us to comprehend how difficult life is when lived in such poverty. The hospital and health centres provide a beacon of hope showing the local community that they are not forgotten and that people from far away places want to help them.

(If you already give on a regular basis please pass this form on to anyone you know who may be interested.)

Thank you for your vital ongoing prayer and giving. We do appreciate your support and encourage you to help us continue the work. There is still much more that needs to be done. Robertson and his team showed us this summer how much he appreciates the support that comes through the Livingstonia Hospital Partnership – he told us that without it things would look very grim. It is a privilege and delight to work alongside him.

Yours sincerely,

Maureen Stevenson, Chairperson.
